PROJECT

E-Learning Website (TechTutors)

Built a dynamic E-learning platform for students to learn Java and Python. Features included user login, notes, video tutorials, quizzes, and an online code compiler. Integrated admin panel for content management and student queries.

Technologies: HTML, CSS, JavaScript, Java (Servlets), MySQL.

Hospital Management System

Developed a web-based system to manage patient records, appointments, doctor scheduling, and billing. Implemented full CRUD functionality with role-based access and clean UI. Connected frontend with backend using Servlets and JDBC.

Technologies: HTML, CSS, Java, JDBC, MySQL
